**TRAVEL INSURANCE
NEED FOR**

TRAVEL INSURANCE WHILE TRAVELING OUTSIDE OF PROVINCE OR COUNTRY

With the increase in medical costs outside of province, and the new lower coverage limit Provinces are placing on out-side-of province medical care, securing additional medical insurance has become a necessity not a luxury. It is necessary to obtain additional coverage when traveling, and direct payment of medical expenses by the insurer is preferred above a minimum amount as stated in the policy.

This ensures members of having access to funds during an emergency situation where the financial costs could be a major problem. Today's traveler is faced with many risks that will result in financial loss to themselves or members of their family in the event of a sickness or accident while away from home.

- Hospital billings could be in excess of thousands of dollars per day.
- Doctors fees for medical prognosis and treatment.
- Emergency return of a sick traveler by air/ground ambulance.
- Accident Dental Expense.
- Rental of wheel chair, crutches, braces or other medical approved prosthetic appliances.

Your whole life savings or assets could be converted to pay for an outside of province or country medical emergency if you do not carry proper travel insurance. This is one team member you can't afford to leave on the bench when you're traveling outside Canada.
